

HE WOULD DIE FOR THE LOVE OF AN ACTRESS.

R. M. GRAY CUTS HIS THROAT BECAUSE HE SAW HIS RIVAL WALKING WITH HIS BEST GIRL.

Because his rival was successful in winning the affections of a young woman who appears before the footlights at the Novelty Theater, R. M. Gray, a youth, 21 years of age, made a desperate attempt to end his life early this morning by slashing his throat with a razor.

The attempt was made at the Portland House on Ninth street about 3 o'clock this morning. The young man deliberately drew a razor across his throat and then lay down on a lounge to allow his life blood to slowly ebb away. His means, however, attracted the attention of other lodgers in the house. The door of his room was broken in and the young man was found.

The police were notified and the would-be suicide was removed to the Receiving Hospital. He was bleeding profusely from a gash about three inches long across his throat. It was owing to the fact

MRS. CALLAN WILL NOT HAVE TO PAY HER HUSBAND ALIMONY.

Judge Hall today denied the petition of James Callan to have his divorced wife, Mary Callan, pay him alimony and counsel fees pending his motion for a new trial, or appeal, in his action to compel her to support him.

When the case was tried a few weeks ago Judge Hall denied the husband's plea for support and granted the wife a divorce on the grounds of cruelty and intemperance.

Callan now proposes to move for a new trial, and if that is denied, to appeal to the Supreme Court. In his petition he stated that unless his former wife was compelled to provide the costs and coun-

MERCHANTS ARE AFRAID OF MURDER.

Appeal to the Sheriff to Investigate Chinese Quarter.

Fear an Outbreak of the Rival Tongs at Walnut Grove.

SACRAMENTO, Nov. 28.—An at-
tache of the Chinese Consul-General's
office at San Francisco named Yan, ac-
companied by Louis F. Boardman and
C. H. Hunter, attorneys of that city,
called at the Sheriff's office here this
morning.

They asked that four officers be
sent with them to Walnut Grove to
investigate the situation in the Chi-
nese quarter there.

They stated that many of the Chi-
nese merchants of Walnut Grove had
fled from the place upon the killing of
Ah Lee last week and were afraid to
return, fearing another outbreak
among the members of the rival tongs.

They further stated they were not
interested in the cause of either of
the warring tongs and only desired
that law and order be maintained and
the Chinese who have fled be allowed
to return and resume business without
fear of molestation. The merchants
are not so much afraid of being killed
as they are of having their houses
burned over their heads.

The under Sheriff detailed Deputies
Conrad and Hinters to accompany
the San Francisco party to Walnut
Grove and two men outside his office
were deputized to assist them. The
party left by conveyance for the scene
of trouble this afternoon.

If everything is quiet at the Grove
the officers will return tomorrow, but
if Yan's fears prove to be well ground-
ed they will remain as long as neces-
sity for their presence exists.

TWO TRAINS CRASH IN THE NORTH

MISSOULA, Mont., Nov. 28.—Two
Northern Pacific freight trains came
together in a head-on collision about
three miles east of Missoula this morn-
ing. An unknown boy, who boarded a
car of furniture at Helena, is missing
and is believed to be under the wreck-
age, which is piled about the track for
a considerable distance.

Both engines were severely injured
and the fireman of one of the en-
gines sustained a broken leg. A tramp
who was on the furniture car with the
missing boy, also had his leg broken.

The collision is believed to be due to
conflicting orders. Trains will be de-
layed for several hours. The injured
were taken to the hospital in this city.

UNION MEN WILL BE PROTECTED

CHICAGO, Nov. 28.—W. D. Mahon,
president of the Amalgamated Associ-
ation of Street Railway Employees, is
today investigating charges made by
the Chicago City Railway employees
that a drastic effort is being made by
the company to oust union men from
its employ and that 300 non-union men
have been hired to take the places of
conductors, motormen and gripmen,
who have been or will be discharged.

Mr. Mahon believes that the trouble
will be settled without interruption to
traffic.

THREE PEOPLE ARE INJURED IN A WRECK

CHICAGO, Nov. 28.—An engine on a
Western Union freight train was
wrecked early today at Desplains,
injuring three persons, one fatally. They
are:

JOHN SCHEIDEL, engineer, badly
scalded about face and hands.
ALBERT PINNEO, brakeman, face and
hands scalded.
WALTER SHERMAN, fireman, scalded.
The accident was caused by the loco-
motive jumping the track.

TOLD NOT TO PAY.—Chancellor
Magie today directed the receivers
of the National Salt Company not to pay
Joy, Martin & Co., of Chicago, \$10,000 for
storage of salt belonging to the company.
This order is made on the ground that
the market value of salt has already been
paid in storage charges; that the cost of
production is much less than when the
salt was originally stored, and that the
amount of salt now being produced in this
country is largely in excess of the de-
mand.

DEATH OF A DEMOCRAT.—Noble
T. Biddle, defeated candidate for Superior
Judge on the Democratic ticket, died at
Pacific Grove early this morning. He was
a native of Maryland and a lineal de-
scendant of the famous Biddle family of
Philadelphia. He came to San Jose about
twenty-five years ago and was accounted
one of the ablest and most upright mem-
bers of the local bar. His age was about
64 years.

JENNIE ANDERSON DROWNS HERSELF IN DEEP WELL.

Relatives Find the Body of the Missing Girl After a Long Search.

Miss Jennie Anderson was found dead
early this morning in a cistern in the
rear of her home near Mowry's Landing,
after members of the family had spent
several hours searching for her.

The indications are that the young woman
committed suicide.

Life had been extinct for some time
when the body was found. On the wall of
the cistern were the shoes of the young
woman. She had apparently left the
house during the evening and after climb-
ing up the wall of the cistern, had sat
there and removed her shoes before tak-
ing the fatal plunge. The fact that she
removed her shoes indicates that the
young woman did not fall into the cistern
accidentally, but had gone about the act
deliberately.

The young woman's absence from the
house was not noticed until late at night.
Then a search was instituted for her. No
trace of her could be found until finally
the shoes were found on the wall of the
cistern. Inside the cistern the body was
found, bloated and cold in death.

Miss Anderson was about thirty-seven
years of age. She was a daughter of the
late Robert Anderson and had been living
with her mother and a married brother,
Robert Anderson, on a farm near Mowry's
Landing. She had been ill for some time
and it is supposed to have affected her
mind and caused her to wish to end her
life. She recently returned home from a
sanitarium at San Jose, unimproved in
health.

Since then she had been very despond-
ent but had not said anything about at-
tempting suicide.

RAILROADS INCREASE THE FREIGHT RATES

WASHINGTON, Nov. 28.—Official
notice of an increase of two and one-half
cents per hundred pounds in the freight
tariff on grain from Chicago to New York
was filed with the Interstate Commerce
Commission today. The new grain
freight basis, which will be observed by
the lines eastbound out of Chicago and
other points east of the Mississippi river
and north of the Ohio is 20 cents per
hundred pounds. It is the first increase in
grain schedule usually follows the closing
of navigation on the Great Lakes.

CHIEF BOODLER KELLEY IS ARRESTED.

NEW YORK, November 28.—The Even-
ing World today prints the following:
Charles F. Kelley, former Speaker of the
House of Delegates of St. Louis, landed
from the White Star Steamer Celtic when
she docked today. At the pier to meet
him was Congressman-elect James J.
Butler of St. Louis, Butler's bookkeeper,
William J. Sullivan, and William Rutigan,
a St. Louis contractor and neighbor of
Kelley's, were his ship companions.

Kelley's face was white and wrinkled
when he left the ship. He started when
an Evening World reporter called him by
name. Congressman Butler tried to shut
the reporter off but Kelley recognized him
as a St. Louis acquaintance and extended
his hand.

"For God's sake let me alone for to-
day," he said. "I have nothing to say.
I have just received word that my son
is dead and I am going right back to St.
Louis."

Congressman-elect Butler denied that
he had come to the pier to meet Kelley,
saying:

"I am here to meet our bookkeeper,
Mr. Sullivan. He went away some time
ago for his health. I am on my way to
Washington and run up here to meet
him."

The passenger list of the Celtic bears
no person with the name of Charles F.
Kelley.

KELLEY A FUGITIVE.—Charles F.
Kelley, the former Speaker of the St.
Louis House of Delegates, left St. Louis
several months ago, soon after the Grand
jury had returned indictments charging
him on several counts with bribery, in
connection with municipal legislation for
street railway and other franchises. His
bonds were fixed at \$30,000. Kelley, it is
charged, is the man who distributed the
\$7,500 bribe fund among members of

BERKELEY LIQUOR LAW UPHELD BY THE SUPERIOR COURT.

Judge Melvin this morning affirmed the
decision of Justice of the Peace Edgar
Berkeley in finding Thomas Nealon
guilty of selling intoxicating liquors at
the California Hotel in Berkeley, and fin-
ing him \$500 for the violation of the law.
This is the second appeal of the fifteen
members of the Justice's Court has been af-
firmed. The first case was that of Wil-
liam Acheson, proprietor of the Acheson
Hotel. Appeals in some of the other
cases are still pending.

The appeal in the Nealon case was based
upon the ground that error was com-
mitted in allowing the introduction of
evidence tending to show that liquor had

BERKELEY LIQUOR LAW UPHELD BY THE SUPERIOR COURT.

been sold at the hotel during the ab-
sence of the proprietor. Judge Melvin
held that the testimony was admissible
as tending to show the kind of business
conducted at the hotel, and to show that
the proprietor aided and abetted in the
illegal sale of liquor.

The fifteen arrests were made in
Berkeley about a year ago as the result
of an organized movement on the part of
the temperance people of that town to
blot out the selling of liquor there in
violation of the State law fixing a mile
limit from the State University. The
unusually heavy fine of \$500 was impos-
ed in each case, as the lesser fines had
not been effective.

DOUGHNUTS AND COFFEE FOR A MONTH

How Ruth M. Porter Punished Husband at Home.

Told His Story to the Judge and Secured a Divorce.

Edgar B. Porter today testified before
Judge Melvin that his wife, Ruth M. Por-
ter, had refused to attend to her house-
hold duties or cook his meals, and that
he had been compelled to live for a month
on a diet of coffee and doughnuts.

The couple were married in 1897 and
have two children, Evelyn, aged 3, and
Edgar, aged 1 year.

In November last, Porter testified, his
wife had caused him much humiliation
by declaring in public that she no longer
cared for him and that she wished to be
rid of him.

On November 3, he said, she left his
home, taking the children with her.

George A. Halstead corroborated the
testimony of Porter to the effect that his
wife had a violent temper, treated her
husband with indifference and neglected
her home.

Judge Melvin granted the husband a
divorce on the ground of cruelty.

CUT HIS THROAT WHILE DESPONDENT

LOS ANGELES, Nov. 28.—In a fit of
despondency, due, it is said, to over-in-
dulgence in drink and inability to secure
employment to his liking, J. J. Callahan
attempted to commit suicide last night
in a lodging house on Second and
San Pedro streets. Callahan was found
lying on the floor with his throat cut.
He was taken to the Receiving Hospital.
Life may die. Papers found in his pocket
indicate that his home is in New
York, but had recently been employed at
Butte, Mont.

two sons and their daughter-in-law, who
were to be discharged from the Albany

ment for petty larceny and burglary. It

FUZZY HOBSON PLACED ON TRIAL FOR SHOOTING.

HE IS ACCUSED OF HAVING SHOT THE WINNER OF THE RELAY RACE AT SAN LEANDRO.

The preliminary trial of John Hobson, time of the shooting. Reed testified that
more familiarly known as "Fuzzy" Hob-
son, for assault to murder, was begun be-
fore Justice of the Peace James G. Quinn
this morning.

Hobson is accused of having shot Emil
Agraz, while the latter was riding a re-
lay bicycle race on the San Leandro road
on October 12th.

Hobson was represented by Attorney
L. S. Church and Attorney Harrington is
assisting District Attorney Harris in the
prosecution. It is the theory of the pro-
secution that club jealousy prompted the
shooting. Agraz was riding for the Gar-
den City Club, while Hobson is a mem-
ber of the Bay City Wheelmen.

The first witness this morning was J.
D. Reed, who was pacing Agraz at the

EVENT.

HAYWARDS, Nov. 28.—The ladies of the Dorcas Society of the Presbyterian Church will give their apron and handkerchief sale and dinner at Odd Fellows' Hall next Tuesday. Active preparations for this event are now in progress and a large collection of fine articles will be on sale at the hall on Tuesday afternoon and evening. There will be all classes of handkerchiefs and aprons, from the elaborately embroidered to the plain and less expensive ones.

In connection with the sale, the ladies will serve a dinner at 12 o'clock. An excellent bill of fare is being arranged, which will be appreciated by the business men, on whose patronage the women are depending to make the dinner a success.

The affair will culminate with an entertainment of musical and literary num-

bers, which will be rendered in the hall during the evening.

Much interest is being evinced among the church people of this and surrounding towns in the coming social, which will undoubtedly be one of the most successful affairs of its kind ever given in Haywards.

MAKES TOWN AN OFFER.

Euston, Eldridge & Company have offered to sell the property located in the rear of the Odd Fellows' land to the town for \$500. As the property is centrally located it would be quite valuable to the town, and could be utilized for the site of a hose station.

The proposition of selling this property was brought up at the last meeting of the Trustees, who in turn offered the company \$400 for the land. In all probability the real estate firm will communicate their decision on the offer to the board at its meeting next Wednesday evening.

BY THE RAILROAD
MEN.

SACRAMENTO, November 28.—Franklin K. Lane, the Democratic nominee for Governor at the recent election, delivered a short address to the men employed in the railroad shops in this city at Third and J streets at 12:10 this afternoon.

Mr. Lane took this occasion to publicly thank them for the support accorded to him in the late campaign.

A very large crowd assembled quite a while before the appearance of Mr. Lane and when he finally did show up, the hearty and enthusiastic reception given him was more like an ovation to the victor than to the vanquished.

Mounted upon an express wagon, which was pressed into service as a platform, Mr. Lane made a short speech to his supporters.

DEATH CAME WHILE
HE WAS AT PRAYER

SAN FRANCISCO, Nov. 28.—In attitude of prayer—just as he knelt at his bedside last night—Patrick Lynch of 221 Twelfth street was found dead by his son this morning. An open gas jet near the head of the bed told the cause of the sudden taking off.

The victim was 68 years of age and rather feeble. He retired at a reasonable hour last night, and it is believed that while he bowed in prayer a draught of wind extinguished the gas flame. Death was purely accidental.

HATCHETMEN WILL
NOT MURDER.OPPOSING FACTIONS HAVE DECIDED
TO BURY THE
HATCHET.

SAN FRANCISCO, Nov. 28.—The highlander tongs that have been warring for a week past decided this morning to bury the hatchet.

They have concluded that that is the best course to pursue, as their shooting has resulted in the landing of a number of each of the opposing factions in jail on charges of murder.

Low Kim Sing, a Sney Dong man, was this morning charged with the murder of Chuck Stout, who was shot to death on Sunday night last.

Ng Gum How, who was killed yesterday under the belief that they will attend to his assassins.

DENIES THE STORY.

LOS ANGELES, November 28.—Mrs. F. A. Darch denounces as untrue the report coming from San Francisco, that she intends to institute suit against Emma Calve for breach of contract in not having provided for the musical education of her daughter Edna Darch. The story she says, has not the slightest foundation of truth.

A GOOD SAMARITAN

Being Helped Himself, Wishes to Help Others.

The papers were never so filled with advertisements of remedies that will cure every known disease, as they are today; these are invariably accompanied by letters from people, testifying in the strongest terms to the virtue and merit of the particular preparation advertised; but because so much is claimed for the medicine, it has come to the point where most readers regard such testimonials as pure "rakes" and made up out of whole cloth.

We are glad, however, to vouch for the reliability of the following from Mr. Wm. Lichtenwalter, proprietor of the largest printing house in Canton, Ohio, regarding the Pyramid Pile Cure, for which nothing is claimed except that it will cure any and all forms of Piles.

"For several months past I have received so many inquiries from sufferers asking if my testimonial is authentic, that I am inclined to send in a bill to you for postage and stationery."

"It is now two years since I was last troubled, and my rectum is as clear and clean as any man who never had piles, although I suffered with protruding, bleeding and internal piles for twenty-seven years. I will not attempt to detail the agony I suffered, being too happy to say I believe I am cured, after two years of evidence."

"What will cure one man will sometimes not cure another; whether it was the Pyramid Pile Cure that cured me, I cannot say; but I have been free from piles for two years after using your treatment. I leave sufferers to draw their own conclusions."

"I will answer any communication that a sufferer may ask, and will refer to any business house, bank or manufacturer of Canton, Ohio, concerning my identity, among whom I have lived for forty-eight years."

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address by Pyramid Drug Co., Marshall, Mich., upon receipt of price.

Drop this firm a card asking for their little book describing the cause and cure of piles.

WANTED.—Young man living at home, about 17 or 18 years old, to start at \$3 per week in a good business. Address R. W., this office.

MRS. HUMPHREYS
WANTS DIVORCESENSATIONAL CHARGES MADE IN A
COMPLAINT THIS AFTER-
NOON.

An action for divorce on the ground of extreme cruelty is the sensational ending of the marriage of Miss Carrie T. Adams, sister of Dr. Frank L. Adams, and Thomas Oswald Humphreys, an actor, which took place in this city little more than a year ago. An 8 weeks old child also figures in the case.

From the allegations in the complaint, which was filed this afternoon by Attorney A. P. Louch, it appears that the life of the young wife with her actor husband has been anything but a happy one. Their troubles began almost before their honeymoon had waned. Instead of the pleasant and lovely character he appeared when playing on the stage, Mrs. Humphreys soon learned that her husband had a violent temper and was not above abusing her when things did not go to suit him at his home.

On one occasion, Mrs. Humphreys alleges, her husband threatened her life with a revolver, compelling her to accompany him with the weapon hidden under his coat. Owing to longer live with her husband, Mrs. Humphreys left him. They were married on July 30, 1901.

BIG DANCE AT
SAN LEANDROLADIES OF FLOR DA UNAIO GIVE
A THANKSGIVING
BALL.

SAN LEANDRO, Nov. 28.—The Thanksgiving ball given Wednesday night by the members of Flor da Unaio No. 6, S. P. R. S. I., was one of the most interesting social events given in San Leandro for many years. The ladies had been preparing for this event for several months and the result was all that had been anticipated.

U. P. E. C. Hall, where the dance was held, had been elaborately decorated for the occasion with palms, evergreen and Christmas berries. The success of the affair was largely due to the efforts of the following committees:

Committee of arrangements—Mesdames Mark L. Silveira, William Silva, Mary Enos, Minnie Focha, Mary J. Silva, Misses Lena Loretta Silva, Carrie Luiz, Minnie Silva.

Reception committee—Mesdames Marie Silva, Flora Silva, Annie Barradas, Emma Rogers, Beile Roberts.

Decoration committee—Mesdames Minnie Focha, Josephine Dutra, Mary G. Terra, Misses Lizzie Lebon, Mary Lebon, Rosie Joseph, Lillie Rogers, Louise Garcia, Mamie Galvin, Maggie Enos.

The officers of the order also assisted in arranging for the ball. They are: President, Miss Mary A. Bettencourt; secretary, Mrs. Margaret Marshall;

WHERE REPUBLICANS LOST.

Contests have been begun in a number of counties because of the workings of the new ballot law. Wherever "no nomination" appeared on a ballot confusion and litigation have followed. A great majority of these ballots were thrown out in accordance with the decision of the Supreme Court in the Boland case, but in many precincts they were counted. In Yolo county the throwing out of these ballots defeated several Republican candidates on the county ticket. The Republican candidate for District Attorney, who was defeated on the face of the returns by three votes. He has therefore begun a contest.

In Kern, Stanislaus, Colusa and Glenn counties, the Republicans lost, but in San Bernardino, Los Angeles, Riverside, Ventura, Santa Cruz, Solano, Napa, Humboldt, and Alameda, the Democrats got the worst of it. While it is not likely that the Democrats sustained sufficient net loss to alter the election of Governor, a great many local candidates belonging to both parties were defeated in defiance of the wishes of the electorate. On this showing alone the law is unsatisfactory. Instead of being a help it is a hindrance to the voter expressing his preferences at the polls.

Commenting upon the results in Yolo county, the Woodland Mail, Republican, says: "Both parties will unite to demand the repeal of a law that is so obviously unfair." While a return to the old ballot law, with all its imperfections, is preferable to retaining the present system, the adoption of the Constitutional Amendment permitting the use of voting machines promises something a great deal better than either. The voting machine will not only expedite voting and counting, while eliminating fraud and blunders in making up the returns, but it will effect an enormous saving in the matter of election expenses. It probably costs the taxpayers a dollar for every ballot cast at the last election. At least half this expense could be avoided by using voting machines, and there would be no dispute as to the fairness of the result. The courts would not be cumbered with one election contest where there are now twenty, and there would be a much greater sense of satisfaction in the public mind.

FOOTBALL RUFFIANISM.

The football season opens with an unusual number of accidents. One student has been killed, and several others have been severely injured—some of them for life. At best football is a strenuous sport, but it is made unnecessarily brutal by men who deliberately commit fouls with intent to disable antagonists. The character of the game renders it easy to commit such acts of atrocity with comparative security. Therefore the college teams should be placed under closer moral discipline in regard to playing fair. Only the cultivation of a true manly spirit among the students themselves can relieve football of its rigors. The tendency to introduce professionalism into college football lowers the tone of the game, and promotes the growth of the "anything to win" spirit. It is this spirit that brutalizes the sport and leads to those acts of refined cruelty on the field, which leave men crippled for life. There is only dishonor in a match won by unfair tactics, and if the "anything to win" spirit ever gets uppermost in the game, it will be the death knell of football as a college sport. It will then become a game of ruffianism, and the sooner it is placed under ban the better. Too much ruffianism and ruffianism already attend the game, and those tendencies need a severe check instead of being encouraged.

It is not altogether improbable that the representatives of the big railroad combines could explain the peculiar attitude of the Colombian officials in the matter of the Panama canal concession. It is worth a cold deal to the railroads to have the canal scheme blocked. For years the government of Colombia has expressed intense desire to have the canal completed, but the moment the United States propose to take it in hand and complete it at an early date, the officials proceed to hamper the project with impossible conditions and excessive exactions. It is all characteristic of the methods that prevail in the so-called republics of South America. In everything that is done there is the taint of venality and bad faith. Fortunately the United States still have the Nicaragua route to fall back on.

POINTED PARAGRAPHS.

Large checks are the correct things in lawsuits this season. Don't argue with a fool. Listeners will say there are two of a kind. A man's heart is blamed for a lot of things that his head is responsible for. When a woman keeps a secret she can't keep secret the fact that she is keeping one.

By the time a man gets old enough to talk with his hands he has learned the value of not talking at all.

A level surface is naturally flat, but there is a vast difference between a level-headed man and a flat-headed one.

Says an Irishman: "Every man is so honest in this country that they are compelled to offer rewards for thieves."

JUST A WAIL.

It reads about President A. Lincoln's every single secret. A wail that in wail derv. He'll sign Thanksgiving day decree A wail that in wail derv. But the wail that in wail derv. A wail that in wail derv.

MAKING HEADWAY IN NEW SCHOOL BUILDING.

ALAMEDA, November 28.—Work on the new High School is progressing in a most satisfactory manner, and there is now every reason to believe that the structure will be completed within a short time. The new building is now about the second story level and will soon be topped off. The galvanized iron corners are being put in place, and the interior frame work is rapidly being put in place. The trust work for the roof is partly in place, and will likely be finished within a week. It is the hope of the contractor that the roof will be on before the rains commence. If this can be accomplished there will be no delay in completing the building on account of the rains. The library building is receiving finishing touches. The plastering is nearly completed. When this part of the contract is finished the men who are to put in the hard wood finish and the color sheeting will take possession of the building. It will take at least six weeks for them to complete their work. When they are through the building will practically be ready to turn over to the Library Trustees. The trustees have decided upon the shade they are to have on the walls and ceilings. The ceilings are to be a very light green and the walls a shade darker. The improvements to the bank building have been completed, and the structure was accepted by the owners last Monday. The bank directors express themselves as well pleased with the work that was done by the contractors, C. H. Foster & Son.

GEORGE DAILY HAD NARROW ESCAPE FROM BEING DROWNED.

ALAMEDA, Nov. 28.—George Daily of San Francisco was rescued from drowning yesterday afternoon off the south end of Walnut street by Dr. J. M. Young and Ernest Rogers. Daily's canoe had capsized and a half ton of shoes in a sack had rolled overboard. The overturned craft in the cold breeze and water he became weakened and chilled. When assistance reached him Daily was completely exhausted and unable to swim. He barely had strength enough to cling to his capsize boat and keep his head above water.

Daily was the Thanksgiving guest of A. Harrison of the city. After eating a hearty turkey dinner he sauntered down to the house of the Elmer Yacht Club at the foot of Grand street. There he secured the canoe. He and went out for a sail, heading toward Fox Island. While he was looking a sudden puff of wind struck Daily's frail vessel and caused her to capsize. Daily managed to grasp the capsize canoe, but he was so far from shore he could not swim. He could not make himself heard.

AMUSEMENTS.

The book and lyrics are by Charles Sins; the music by Theodore Northrop and Clarence Sims. The chorus is attractive and their voices possess a ringing quality and volume that make them one of the features. William Sims, who has the star role, is one of the famous comedians on the American stage.

ROAST FOR THE EMPEROR.

GERMAN PAPER IS FEARLESS IN REPEATING CHARGES AGAINST KRUPP.

BERLIN, Nov. 28.—The Vorwarts, commenting on Emperor William's speech on the day of the funeral of Herr Krupp at Essen, says: "While prosecution is still pending against us and the truth is not judicially yet ascertained, the Emperor anticipates the court's findings by pronouncing our guilt out of hand. It is allowed that the crown at the inquisitorial stage of a pending case utter a verdict and thereby place the judges upon the painful dilemma of either contradicting His Majesty or subjecting themselves to the suspicion that their judgment was influenced by him. Justice stands above everything, even above the Emperor, and the freedom of the courts is the life and nerve of every State."

CAUSE OF FIRE IS NOW ASCERTAINED

BERKELEY, Nov. 28.—It has now been ascertained just how the fire originated in the Chemistry Building of the University of California yesterday. Samuel Jacobs, a student assistant in the chemistry department, has been conducting an experiment for two weeks in which some chemicals had to be kept heated and dried in an oven. The process of heating had to be a slow one, and a Bunsen burner was left for a long time under the gas jet, relaxed and the flame lowered, and getting below the burner, ignited the rubber tube. It was this tube which, blazing and with a stream of burning gas pouring from it that set fire to the building.

This is not the first time that this has happened. Twice before during the carrying on of this same experiment, the flame has reached to the tube, but in both cases someone was on hand to avert a catastrophe. The accident of yesterday will lead to the introduction of safety burners, that will automatically turn off the gas should the flame burn back. Another proposed precaution is to run all the gas tubes through water.

BURNS AND FOLEY WILL MEET TONIGHT.

THE FIGHTERS IN CONDITION FOR THEIR CONTEST AT THE ACME CLUB—LATEST NEWS OF THE FIELD AND TURF.

"Rough House" Charlie Burns and Harry Foley will meet at the Acme Club tonight and the fight will probably be one of the fiercest battles ever contested in this city. It is true that Burns does not claim to have a great amount of science, but he is a mixer of the "rough house" kind and can be depended upon to waste in after his man. He has a punch and to land that punch he is willing to take half a dozen. He has the vitality to do so.

Burns is not a rough fellow in disposition and by his cheerful manner during the few weeks he has been here, he has made a host of friends. But when the bell rings, he is a different fellow and forgets all that he was taught at home and there is sure to be something fast going on all the time. Burns has been put down on the carpet many times, but that is part of his fight and he doesn't stay in a reclining position long. He is a brawler, a fighter keeps boring in on the other fellow he is bound to get a hard punch occasionally. But he figures that his great recuperative powers will carry him through and land him first money. In fact, in one of his recent fights, Burns was knocked down no less than seventeen times, but the other fellow couldn't stand the pace and he won out.

Burns has been doing all of his training under "Biddy" Bishop at Baker's and is fit to travel any number of rounds. In his corner, tonight will be "Biddy" Bishop, "Monk" Cornburn, the jockey, and Maxey Haugh, who is soon to fight Eddie Hanlon.

Harry Foley is distinctly a California boy and has not the reputation that Burns has as a mixer, but he has a great deal of cleverness and thinks that he will be able to withstand the Easterner's rushes. He is a husky fellow, capable of taking a great deal of punishment.

Foley figures that he has enough stamina to take all that Burns can give and then have the cleverness to give the punch to put his opponent out. He acknowledges that he has a hard fight before him, but has made careful preparation for it and is confident of winning out.

Referee Eddie Smith, who judged the Britt-Ernie fight, will be the third man in the ring and he will see that the rules are strictly adhered to. Smith's decisions have never been questioned.

In Foley's corner will be Eddie Hanlon, Mike Short and Poly Irwin. The curtain-raiser will be between two unknowns who have a side bet of their own on the result of the fight, besides a long standing grudge to settle. They will fight at 125 pounds.

The first preliminary will be furnished by Young Chynowski of the Acme Club and George Brown of the West Oakland Athletic Club. They are signed to go six rounds at 150 pounds.

The second preliminary will be between Tommy Cox of Australia and Jimmy Howard of the Hayes Valley Athletic Club. The youngsters will fight at 124 pounds and are scheduled to last eight rounds. Both are clever little fighters and the bout should be a fast one.

Manager Lavigne has made preparations to receive a large crowd and he will need all of his seating capacity as nearly all of the tickets have been disposed of.

A special train will be run from 7:30 broad gauge boat from San Francisco in order that the large number coming from San Francisco may be accommodated.

It is expected that a number of Sacramento sports will be on hand to see the fight and also a number from different parts of the State.

LARGE SUMS PLACED ON THE RACES.

RYAN'S FOLLOWERS WIN TEN THOUSAND DOLLARS AND MANY BOOKS LOSE.

The holiday crowd that thronged the grand stand and jammed the betting ring at the new California Jockey Club track at Ingleside yesterday returned home well satisfied with the day's sport and with fattened pockets.

Jim Smith, who places Tom Ryan's money with the bookmakers, went down the line of the Mountbank in the sixth race. It is estimated that the Ryan contingent took \$10,000 out of the ring. As good as \$8 to 1 was laid against Mountbank and George Rose took a \$400 bet at those odds, causing him a loss of \$3,200. The other books suffered heavy losses also. Mr. Ryan's horses are always trying to win and his success was not begrudged him by the followers of the turf. Urchin finished second, six lengths in front of Gavaine.

The reversal of form shown by Stover's Ilowaho will undoubtedly be looked into by the judges as the previous races of this particular horse have been the subject of comment. Ilowaho's last two races were bad and the easy winning of yesterday's race should be the subject of rigid investigation.

It was later in the afternoon given out from the judges' stand that L. Jackson, who rode Ilowaho in his former starts, would not be allowed to ride again. He was indefinitely suspended.

MET DEATH WHILE ASLEEP.

ANOTHER THEORY REGARDING THE TRAIN WRECK AT BENICIA.

WEST OAKLAND MOLE, Nov. 28.—The railroad officials have about accepted the theory that Henry Foster and H. W. Davis, who were killed in the head-on collision at Benicia yesterday morning, were asleep in the cab of their engine at the time of the wreck.

James Agler, manager of the Southern Pacific Company, said today that according to all the information he had been given there was no way to explain the wreck except on the theory that both the engineer and fireman of the west-bound train were fast asleep in the cab.

"The engineer of the west-bound train," he said, "knew that he was to pass the east-bound freight at that siding. He was under orders to that effect, and there is even a rule in the time table requiring the west-bound train to take the siding at that point, passing a train of the same class. Instead of paying any regard to this order the engineer of the west-bound train continued on the main line, past the siding, and crashed into the east-bound train that was waiting on the main line just this side of the west switch. If the engineer of the west-bound train had been awake he could not have failed to show up for the siding."

The headlights of the east-bound train was flashing in the eyes of Engineer Foster, and this ought to have warned him that there was another train in front of him. But he never showed his speed or gave any indication that he knew where he was. I am convinced that both the engineer and fireman were asleep, for those and other reasons. The accident occurred between 7 and 1 o'clock in the morning, and that is the sleepiest hour that affects men more than any other hour of the day or night. It has been

CHECK SWINDLER IS AT WORK

H. F. McElroy, landlord of the Portland House, on Ninth street, near Broadway, has reported to the police that his wife was recently made the victim of a clever check swindler.

Several days ago a man, who gave his name as C. L. Bruce, engaged a room at the boarding-house. The next day he borrowed \$5.00 from Mrs. McElroy, giving as security a check on the Union National Bank for \$98.85. Then he disappeared and Mrs. McElroy's suspicions being aroused, she took the check to the bank and learned that it was bogus.

POISON MYSTERY IS UNSOLVED.

RICH AND CHRISTENSON QUARREL OVER A PRETTY YOUNG LADY.

The police are still trying to unravel the mystery surrounding the poisoning of Dr. M. McEnroe and Miss Margaret Cooper, who ate candy filled with arsenic, which had been left in Dr. McEnroe's dispensary in the Abrahamson Building, but so far they have been unsuccessful.

The latest phase of the case is the story of a quarrel between Stanley Rich and Dr. Laurence Christenson, as told by Miss Grace McNaughton, who is employed as a clerk in Emil Lehnhardt's candy store on Broadway. Miss McNaughton says the young men were her admirers, and that she was the cause of their quarrel.

Her story follows: Rich and Christenson were both my admirers, but that was about six weeks ago. Mr. Rich and Mr. Christenson both came here to see me very often, and sometimes they happened in at the same time. Then they had trouble and each said that the other should never come to the store again. That was about six weeks ago, and they have been here only a few times since. They were pretty bitter toward each other.

Miss McNaughton was asked if the young men were in the habit of buying candy at the store. Her answer was: "Yes, they bought several boxes of candy, and some of these were purchased just before they had their quarrel. What

they did with the sweets I don't know. I suppose I didn't get them."

The candy into which the arsenic was placed was purchased at Lehnhardt's store. Christenson was formerly employed as an apothecary in Dr. McEnroe's dispensary and his place was taken by young Rich. Miss McNaughton has told her story to the police in the hope that it may assist them in solving the mystery.

MANY REPORTS ABOUT THE DISEASE OF CATTLE

BOSTON, Nov. 28.—The cattle bureau of the State Board of Agriculture up to today had received about 100 individual reports of the presence of the foot and mouth contagion, which has caused the Secretary of Agriculture to prohibit the exportation of cattle from Boston and to establish a quarantine of cattle, sheep and swine in New England. It was stated that all reports received had come from localities within seventy-five miles of Boston. The closing of the Brighton stockyards, the principal one in New England, by the State Board of Agriculture, will cause an interruption of traffic which, under ordinary circumstances, aggregates 100 to 200 head of cattle a day.

WORKMEN HOLD MEETING.
LONDON, Nov. 28.—At a joint meeting of the Swansea plate manufacturers and representatives of their workmen, just held, arrangements were made for stoppages of a week each month, in December, January, February and March. This action is owing to the depression in the Welsh plate trade and is in accordance with a resolution passed at a meeting of the "Tin Makers' Association" held at Swansea on Tuesday.

LEFT A LARGE FORTUNE.
ESSEN, Prussia, Nov. 28.—The late Herr Krupp's wife leaves the factory to his eldest daughter, Bertha, to be administered by his widow until the daughter attains her majority. Besides the \$200,000 stock for the benefit of the children, Frau Krupp, in behalf of Friedrich Bertha, has given \$250,000 to be devoted to the improvement of Essen.

BANNER WILL GO SOUTH.

PROMINENT REPUBLICANS WILL GO ON THE TRIP TO LOS ANGELES.

SAN FRANCISCO, Nov. 28.—The Republican banner will be taken to Los Angeles this afternoon. Many prominent Republicans will go on the trip south and a large time is anticipated. Los Angeles County gave Pardee 6,350 plurality and elected him.

Yesterday a telegram was sent to Bradner W. Lee, member of the State Central Committee for Los Angeles, telling that President George H. Pippy of the Union League Club would tender the banner to Governor-elect George C. Pardee, who will formally present it to the Republican County Committee of Los Angeles. Henry G. W. Dinkelspiel, chairman of the Union League Club Committee, will read and present the deed of trust which goes with the banner.

A special train carrying the Republican pilgrims will leave Third and Townsend streets at 6:15 this evening. Returning the party leave Los Angeles on Sunday evening, reaching San Francisco Monday morning at 7:30. Among those who will make the journey are:

BRIDE AND GROOM BOTH HAVE RECORDS

NEW YORK, Nov. 28.—Florence Burns, the young Brooklyn woman, who was accused and later exonerated of the murder of her sweetheart, Walter Brooks, in a hotel in this city some months ago, was married last week to Charles W. Wildrick. The marriage was kept secret until today. Wildrick is a son of Lieutenant Colonel Abram C. Wildrick, U. S. A., who died in 1894. He was arrested last April charged with passing a bad check at the Hotel Grand, where he had been accompanied by Mabel Strong, a wealthy young woman of Cleveland. Miss Strong's father came on from Cleveland to look after her, but she would not leave home while Wildrick was in prison, and she was removed to St. Luke's Hospital, where she died shortly afterward of quick consumption.

FINE PAINTING IS PLACED ON EXHIBITION

A beautiful painting representing California grapes is on exhibition in the office of Woodward & Watson. The picture was painted by Millie Grafendorf of Redwood City, and is a beautiful thing. The picture will be raffled and the proceeds will go to the artist.

PUTTING IT STRONG

But Doesn't It Look Reasonable?

This may be read as though we were putting it a little strong, because it is generally thought by the majority of people that Dyspepsia is its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, and is a healthful thing. The picture will be raffled and the proceeds will go to the artist.

The trouble with Dyspepsia is that they are continually dieting, starving themselves, or going to opposite extremes or else indulging the already overburdened stomach. "Ditters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What one stomach wants is a rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

There is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its success and popularity leaves no doubt as to its merit.

"The Tablets will digest the food anyway, regardless of condition of the stomach."

The sufferer from Dyspepsia according to directions, is to eat an abundance of good wholesome food with water and tablets before and after each meal and the result will be that the food will be digested no matter how bad your Dyspepsia may be, because, as before stated, the tablets will digest the food even if the stomach is inactive. By illustrating our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 95 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest. Your druggist will tell you that of all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

FOREIGN MISSIONS.

President Wheeler of the State University occupied the pulpit of the First Presbyterian Church in San Francisco yesterday afternoon. He spoke as follows:

FOREIGN MISSIONS.

"No one does any good by carrying a people away from their faith. No person does good who tears a Chinaman from away from the faith of his ancestors. Tear a man away from that, and he loses the influence of home, the teachings of his mother and goes down to death. No one does a service to humanity by tearing away the shield of the native before a new life. The missionaries who seek to root out old faith in the hope of substituting absolutely new theories have, in most cases, failed, in the others, so far as the good of the faith of his ancestors.
